

## What a Tarot Reading Can and Can't Do

by

James Himm Mitchell

A Tarot reading *cannot*:

- Predict the future with unerring accuracy.

The future is not a set-in-stone thing. You have the power of choice, and free will. Choice and free will are the things that can change the future at any point.

A Tarot reading *can*:

- Offer guidance and advice about a situation.

A reading's main function is to provide you with information. It is to show you various aspects of a situation, and to provide advice and guidance regarding the situation(s) being shown.

- Show you the possible outcome to a given situation.

What I tell my clients is that, when looking at a particular situation, if you, as the seeker, make *no changes* regarding the situation, the outcome being shown is the *most likely outcome*.
